For those of you in the market for a [cheap used BMW](#) then take a drive down to Big Motoring World in Kent. My work colleague purchased a used BMW X5 from here last week and recommended me based upon the deal they structured and their superb customer service. I went there this afternoon and can assure you I have never seen so many cheap BMW cars for sale in one single location. My current car still has outstanding finance and it is not easy to change it as it is on a contract hire. I will definitely come here in three months to buy a used BMW.
